

Peace of Mind Across Operations

Your stores operate 24/7/365 and your customer needs and desires are consistently changing. You need a partner focused on the same business operations as you are—increasing cash flow, improving efficiencies and lower operating costs. Small Box Energy has proven experience and industry expertise to make a big impact on your business. We are at the leading edge of integrated energy management and managed services for convenience stores, with over 10 years of experience. As your operations change to become a premier food service provider, we will help reduce food loss and secure food safety through temperature monitoring.

Make Small Box Energy your partner to optimize equipment and operational efficiencies.

Small Box Energy's chameleon™ Platform allows you to:

o Reduce Equipment Costs & Enhance Performance

- Alarms and Alerts for HVAC, Refrigeration and Lighting
- Early Equipment diagnostics reduce maintenance costs by as much as 20%
- Equipment only operates when it needs to, reducing unnecessary run times and extending equipment life

o Elevate Food Safety

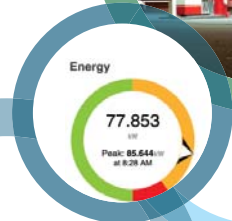

- Real-time temperature monitoring, reporting and alarms for walk-ins, freezers and reach-in coolers
- Wireless food probes provide alarms for out-of-temp foods, historical data and reporting

o Decrease Energy Consumption

- Achieve 10% to 30% energy savings by monitoring and controlling HVAC, lighting and refrigeration equipment
- Reduce unnecessary refrigeration defrost cycles by 70%
- Programmed set-point with time-based overrides allow equipment to be stair-stepped by zones, maximizing energy efficiencies
- Astronomical lighting schedules significantly reduce lighting costs

o Increase Profits

- No up-front capital requirements and positive cash flow in the first month
