

Peace of Mind

When your business depends on improving cash flow, operating efficiencies, and lowering costs, you need a value-added partner with proven experience, capabilities and industry expertise to make a difference. Small Box Energy has been at the leading edge of integrated energy management and managed services for restaurants just like yours, for 10 years. With installations across the nation's leading QSRs and family dining establishments, we have become a standard among many brands.

Make Small Box Energy your partner to optimize equipment and operational efficiencies and improve food safety.

Small Box Energy's chameleonTM Platform allows you to:

o Elevate Food Safety

- Real-time temperature monitoring, reporting and alarms for walk-ins, freezers and reach-in coolers
- Wireless food probes provide alarms for out-of-temp foods and provide historical data and reporting

o Capture Early Equipment Diagnostics

- Visibility enables remote equipment review, data analysis, and diagnostics capability
- Real-time alarms and system generated inefficiency warnings enable service managers to prioritize repair and maintenance needs, reducing costs by as much as 20%, or more

o Decrease Energy Consumption

- Equipment only operates when it needs to, reducing unnecessary run times and extending equipment life
- Reduce unnecessary refrigeration defrost cycles by 70%
- Achieve 10% to 30% energy savings by automating, monitoring and controlling critical systems (HVAC, Lighting, Refrigeration)

o Balance Between Comfort and Savings

- Programmed set-points with time-based overrides allow equipment to be stair-stepped by zones, maximizing energy efficiencies

o Increase Profits

- No up-front capital requirements, low monthly managed services fee

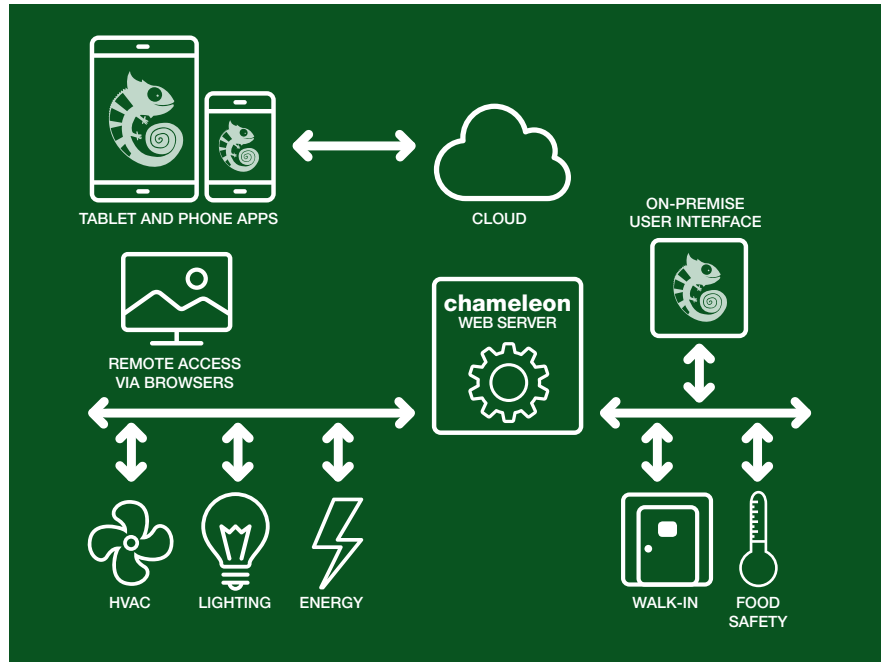

chameleonTM Advantage

Our managed services partnership supports your operations by monitoring, automating and controlling key energy consuming equipment to reduce costs and increase efficiency.

Dedicated Client Success Managers 24/7

Our team of managers proactively look for equipment anomalies, maintenance needs, and operating inefficiencies while highlighting critical aspects of restaurant operation.

Weekly, monthly and quarterly reports provide actionable items to help reduce your costs and improve overall restaurant operation.
