

# Efficiency For Operations

Your focus is on your customers, sales goals and business growth which is why you need an operations partner focused on your facilities efficiency and minimizing maintenance and energy costs. Small Box Energy can be that partner. Our proven experience will make a big impact on your business by improving efficiencies, lowering operating costs and increasing cash flow. We are at the leading edge of remote equipment diagnostics, integrated energy management and managed services for retail stores, with over 10 years of Internet of Things (IoT) and cloud-based facility automation experience.

Make Small Box Energy your partner and you'll see real results across your entire portfolio.

## Small Box Energy's chameleon™ Platform:

### o Reduces Equipment Costs

- Automation and scheduling reduces equipment run-time
- Real-time alarms and alerts for HVAC, refrigeration and lighting provides immediate notification to minimize equipment damage and excess run-time

### o Enables Predictive Equipment Maintenance

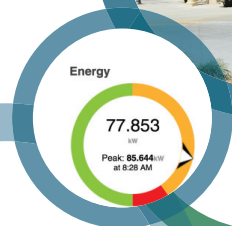

- Full visibility into live and historical data for equipment performance analysis
- Remote diagnostics enables more cost efficient repair decisions
- Monitoring and real-time alarms for refrigeration equipment reduces loss of temperature controlled inventory and identifies maintenance needs earlier
- Graphs provide quick visualization of trends and human behavior
- Early equipment diagnostics reduces maintenance costs by as much as 20%

### o Decreases Energy Consumption

- Achieve 10% to 30% energy savings by monitoring and controlling HVAC, lighting and refrigeration equipment
- Programmed set-points with time-based overrides allow equipment to be stair-stepped by zones, maximizing energy efficiencies
- Astronomical lighting schedules significantly reduces lighting costs

### o Increases Profits

- No up-front capital requirements
- Nominal monthly managed service fee

Delivering Operational Excellence and Efficiency

# Retail Stores

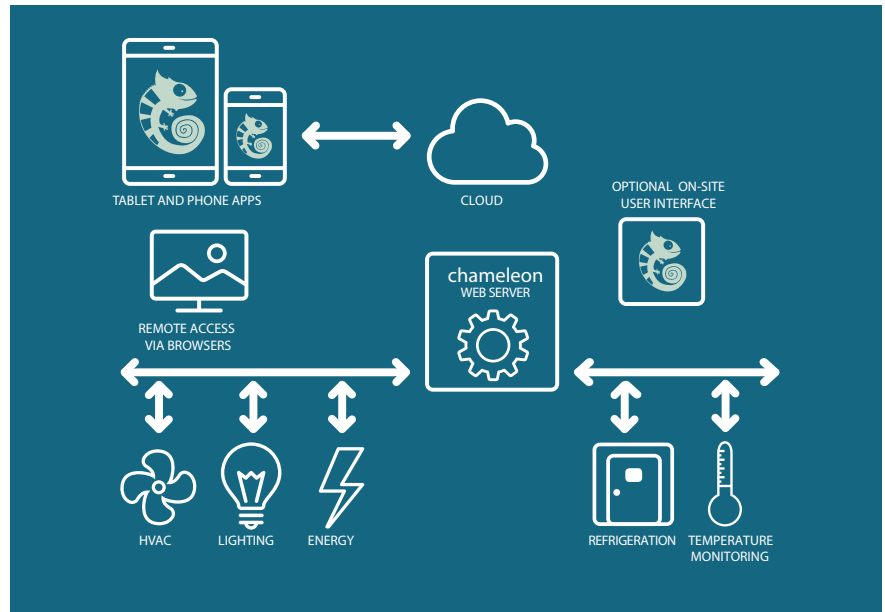

## chameleon<sup>TM</sup> Advantage

Our managed services partnership supports your operations by monitoring, automating and controlling key energy consuming equipment to reduce costs and increase efficiency and profits.

### Dedicated Client Success Managers 24/7

Our team proactively looks for equipment anomalies, maintenance needs, and operating inefficiencies while highlighting critical aspects of restaurant operation.

Weekly, monthly and quarterly reports provide actionable items to help reduce your costs and improve overall restaurant operation.
