

# Focused on Profitability

For more than 10 years, Small Box has been at the leading edge of automation, operating efficiency and energy conservation using our innovative chameleon™ platform specifically designed for restaurants and convenience stores.

Today, we leverage our award-winning IoT platform to provide early equipment diagnostics, real-time alarms to increase food safety through temperature monitoring, and automation to reduce critical equipment's total energy consumption. The affordable solution is provided as a monthly subscription fee with a dedicated Client Success Team member assigned to your account to ensure mutual success.

## Small Box Delivers:

o **A fully integrated food safety, equipment diagnostics and energy management system designed specifically for restaurants and convenience stores**

- Field-proven, with rigorous multi-year testing with one of the largest QSRs in the world
- 24/7 remote monitoring and control of refrigeration, HVAC and lighting systems using your phone, tablet or computer
- Real-time temperature monitoring and alarms elevate food safety and help prevent food loss
- Secure cloud-based application with real-time and historical data for analytics and reporting

o **Dedicated Client Success Managers review sites regularly and identify equipment maintenance needs and operating inefficiencies.**

- 24/7 Monitoring for alarms, equipment analysis and maintenance needs
- On-going operational support and employee training
- Actionable recommendations provided to improve efficiency and profitability

o **Quarterly Report Cards provide insights and recommendations to improve profitability**

- Review of store equipment and suggested maintenance through early diagnostics
- Review of employee behavior such as HVAC overrides and refrigerator doors being left open
- Review of overall energy consumption, anomalies and trends
- Summary of alarms and corrective actions taken

o **Multi-location and/or enterprise control through a single login**

- Easy to use Mobile App and access via any browser
- Multi-user access
- “20/20 Rule” – A 20-year-old can learn to use the system in 20 minutes or less

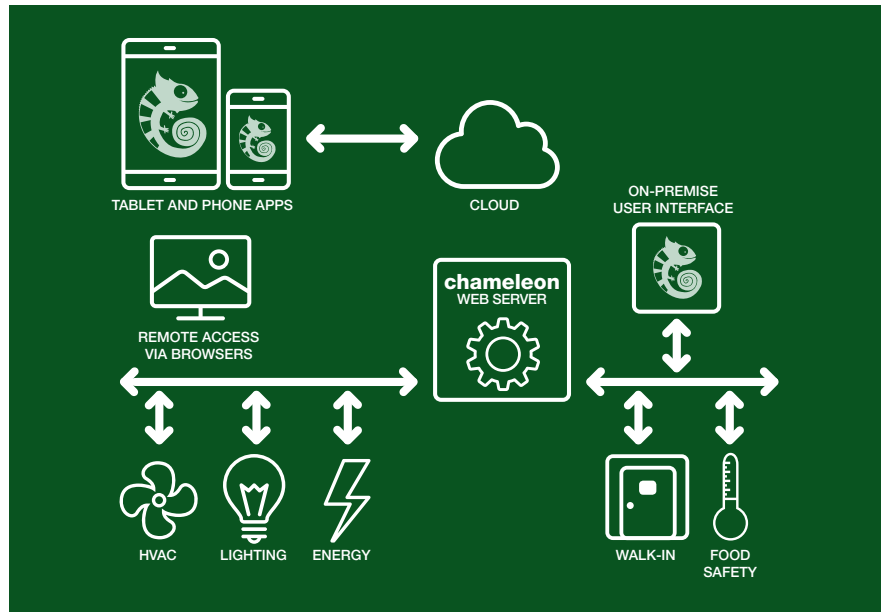

o **No upfront costs required with a low monthly subscription**

# chameleon<sup>TM</sup> Advantages

The chameleon Platform allows you to:

- Extend equipment life by reducing defrost cycles in refrigeration and freezers by 70%
- Lower facility management fees
- Decrease food loss with immediate temperature alarming
- Improve operational efficiency and food inspection procedures
- Reduce energy consumption from 10 to over 30% per location

## chameleon-Cloud

An enterprise application provides remote access and intuitive control across multiple platforms using a highly informative and easy-to-use interface.
